FROM THE PRINCIPAL'S DESK
MS. JOANNE GANGI

Today we are celebrating Catechetical Sunday. We acknowledge and thank all those who teach Religion. Also beginning today, Hospitality Sunday is back. Every third Sunday of the month all parishioners are invited for refreshments in the church basement following each Mass. This is a great opportunity to meet with fellow parishioners and get to know one another.

This is a quiet week for a change. Some of the high schools are visiting our seventh and eighth grade students to familiarize them with the different schools.

Last weekend, our eight graders had their very first fundraiser of the year. Their Car Wash was a huge success and all proceeds will be used to offset the cost of their senior trip. Thank you to all those who brought their dirty cars to the schoolyard in support of this eighth grade endeavor.

During the last trimester of school, one of our students proposed an activity that would benefit Shriners Children's Hospital. Olivia Lawrence, who was in the sixth grade last year asked our students to collect soda and grocery can tabs. She placed boxes in each classroom and our students brought in their tabs. The tabs are sent to the hospital which in turn gets money for the tabs that is used to purchase gas for the vehicles that transport patients and their families back and forth to the hospital to receive treatment. Our efforts raised \$250. This year Olivia is once again proposing our participation and she's getting an early start. Way to go Olivia!

Our Robotics Club will be beginning on the first Monday in October. This year we have some experience and plan to enter our team in the competition. We are happy to be able to offer this extra-curricular activity to our students, however, it is costly. Purchasing Lego products, materials, entering the competition and dedicating a laptop to the program requires funding. We thank National Grid for their generous donation to help support our club. There may be other companies that would be willing to donate to our club. If you know of any, we would greatly appreciate anything they are willing to give. We are also always looking for donations of Lego products to enhance our robot. Don't throw them out, send them our way!
